Part IV writing (15marks, 30 minutes)

The living condition of college students has been improved greatly compared with that of many years ago. But still it is far from satisfactory. Usually four people share a small bedroom, which may not be equipped with bathroom, air conditioner or TV set. It is likely for roommates to have quarrels if we fail to adapt this situation. The failure to get along with each other will first affect our mood. We will feel upset and even depressed. This bad mood will then have a negative effect on our sleep, appetite and study. Since normally we are not allowed to change our dormitory after at least one semester, the poor relationship between roommates will be harmful. So we must

be more considerate, tolerant and unselfish in order to have a smooth relationship. For example, when others are asleep, we should lower our voice and walk quietly. We should also help others when they are ill or in trouble.

### Media and Shopping

Nowadays, the media have been highly developed. People begin to buy many merchandizes through media.

Media shopping can bring people with many benefits. First, people can buy goods at home. This can help them save time and energy. They need not to rush to shopping center or supermarket. Second, buying goods through media can save money for them. Goods sold through media are usually cheaper than selling in the market.

In my mind, buying goods through media can bring a lot of benefits to people. However, it can also bring some shortcomings to them. People should pay more attention to the security to it because of many cheating in media shopping.

## How to Keep Psychologically Healthy

One in four people will experience some kind of mental health problem in the course of a year. When you fail to manage to control these problems, they are likely to cause various mental illnesses and, as a result of physiological imbalance, physical illnesses. You may not be able to live a normal life, let alone fulfilling one.

The causes of mental health problems often vary a lot. from one case to another. In today's society, a good number of people are suffering from heavy pressure. Others are lacking in communication skills and feel they are living in an isolated world. In addition, a lot of people are ignorant of psychological knowledge about how to keep mentally fit.

There are a lot of ways to cure mental health problems and keep psychologically healthy. Firstly, find the real cause of your mental health problem and see whether you can do something to make a change. Secondly, learn to relax yourself and take exercise to release the pressure. After all, your health is what counts most. Lastly, you may find it helpful to tell a relative or a friend about your problems, or seek support and advice from a psychological consultant.

Dear Mr. and Mrs. Hills,

Thank you very much for your invitation. I would like to come to your 10th anniversary. But I am very sorry to tell you that I need to go to another city to work as an interpreter for a company during `Nov.15-20. It's really a pity for me, as you may know how I enjoy being with you, long-time old friend of mine.

But I will make it up by arranging some other activities when it's convenient for you two and me. How about go fishing in a reservoir the first Saturday in December? I am sure you will enjoy it.

Look forward to your replay.

Happy Anniversary!
